This in vitro study investigated the anti-bacterial efficacy of silica (Z-100), calcium hydroxide (Pulpdent), calcium oxide (Ondina), zinc oxide (Ondine), and calcium sulfate (Sealite, Tooth Mousse) used as primary and secondary caries control sealants. Standardized cylindrical cavities were prepared on the labial surface of bovine enamel and filled with the test sealants. Bacteria were allowed to adsorb for 24 hours before being washed off with phosphate-buffered saline. After 24 hours of storage, the surface-associated bacteria were counted by two-color epifluorescence microscopy. On the average, the calcium hydroxide and calcium oxide sealants provided 2 and 7.4 times greater bacterial reduction, respectively, than the other sealants. The other calcium phosphate sealants provided similar protection. The sealants containing calcium hydroxide and calcium oxide demonstrated significantly greater (P The O'Reilly Factor will celebrate President Donald Trump's inauguration with a "filthy show" titled "Sex and the Presidency". TV host Bill O'Reilly will host a segment on the conservative-leaning Fox News channel on Thursday called "The Washington Wrap" on the 2016 political campaign, his first since the Thanksgiving airwaves. In the segment, Mr O'Reilly will show a clip of first lady Melania Trump and discuss how she appears in the media. "How come Mrs Trump is making this White House look like one? Why is she such a problem?" a reporter asks. "She really is, isn't she? She comes across as extremely prim and proper, and that's
